

**EXPAND**  
THE TRADITIONAL CLASSROOM

**ENHANCE**  
LEARNING OPPORTUNITIES

**EMBRACE**  
COLLABORATION

With Zoom Video Conferencing available exclusively from your Information Technology Center

---

**HARNESS THE SOFTWARE**

Zoom provides remote conferencing services using cloud computing with communications software that combines video conferencing, online meetings, chat, and mobile collaboration.

Harnessing the power of this technology, Zoom has the ability to open seats in every PreK-12 and college classroom in every district in Ohio to every student.

---

# The New Learning Environment

## CONNECT PARENTS, STUDENTS, COMMUNITY MEMBERS, AND STAFF

### Expand the Traditional Classroom

With Zoom, educators can eliminate traditional barriers to learning and remove the boundaries of brick and mortar. Students now have statewide, and potentially global, access to learning.

### Enhance Learning Opportunities

Virtual field trips, unavailable subjects, and one-to-one learning - Zoom enables schools to offer equity access to expanded learning opportunities.

### Embrace Collaboration

More than a video conferencing tool, Zoom can be used for weather emergencies, parent-teacher conferences, after hours tutoring, staff in-houses, and much more.

Contact your local Information Technology Center or visit <https://www.oecn.org/shop/> for more information or to order.
